

2-Digit Addition Without Regrouping Worksheet - Answer Key

2nd Grade - two-digit addition without regrouping | 12 minutes

Add. Add the ones first, then the tens. Keep the columns lined up.

Example: $23 + 14$: ones $3 + 4 = 7$; tens $2 + 1 = 3$. So $23 + 14 = 37$.

1. $23 + 14 =$

Answer: 37

2. $41 + 35 =$

Answer: 76
