

Missing Factors Multiplication Worksheet - Answer Key

3rd Grade - missing factors | 12 minutes

Find the missing factor that makes each equation true. Write it in the box.

Example: $3 \times \underline{\quad} = 12 \rightarrow 3 \times 4 = 12$.

1. $3 \times \underline{\quad} = 12$

Answer: 4

2. $\underline{\quad} \times 5 = 30$

Answer: 6

3. $4 \times \underline{\quad} = 28$

Answer: 7

4. $\underline{\quad} \times 6 = 18$

Answer: 3

5. $7 \times \underline{\quad} = 49$

Answer: 7

6. $\underline{\quad} \times 8 = 24$

Answer: 3

7. $9 \times \underline{\quad} = 27$

Answer: 3

8. $\underline{\quad} \times 4 = 36$

Answer: 9

Challenge

9. $6 \times \underline{\quad} = 54$

Answer: 9

10. $\underline{\quad} \times 7 = 56$

Answer: 8
