

1st Grade Reading: All About Bats (Nonfiction)

1st Grade - simple nonfiction comprehension | 12 minutes

Name: _____ Date: _____

Read the passage:

Bats are animals that can fly. They are not birds. Bats have soft fur and thin wings. Most bats sleep all day and wake up at night. At night, they fly out to find food. Many bats eat bugs, like moths and mosquitoes. A bat can eat hundreds of bugs in one night! Bats sleep hanging upside down. They are helpful animals because they eat bugs that bother people.

Read the passage. Then answer each question using the passage.

1. Are bats birds?

2. When do most bats wake up?

3. What do many bats eat?

4. How do bats sleep?

Challenge

5. Why does the passage say bats are helpful?
