

# Money Word Problems Worksheet

2nd Grade - money word problems | 15 minutes

---

Name: \_\_\_\_\_ Date: \_\_\_\_\_

**Read each problem and solve. Remember the coin values: quarter 25, dime 10, nickel 5, penny 1. Write your answer in cents.**

Example: Sara has 3 dimes and 2 nickels:  $30 + 10 = 40$  cents.

1. Sara has 3 dimes and 2 nickels. How much money does she have?

\_\_\_\_\_

2. A pencil costs 45 cents. Tom pays with 2 quarters. How much change?

\_\_\_\_\_

3. Mia has 2 quarters, 1 dime, and 3 pennies. How much in all?

\_\_\_\_\_

4. An eraser is 30 cents. You pay with 50 cents. How much change?

\_\_\_\_\_

5. Jon has 4 dimes and 1 quarter. How much money does he have?

\_\_\_\_\_

6. A sticker costs 20 cents. How much do 3 stickers cost?

\_\_\_\_\_

## Challenge
