

Summer Addition & Subtraction Word Problems

2nd Grade - summer addition and subtraction word problems | 15 minutes

Name: _____ Date: _____

Read each problem. Write a number sentence, solve, and label your answer.

Example: There were 38 seashells and the waves took 19: $38 - 19 = 19$ seashells left.

1. There were 38 seashells on the sand. The waves took 19. How many are left?

2. We ate 24 popsicles in June and 29 in July. How many popsicles in all?

3. A pool had 50 floats. 23 were borrowed. How many are left?

4. Sam caught 16 fish and Ana caught 18. How many fish in all?

5. There were 45 watermelons. 27 were sold. How many are left?

6. We planted 32 flowers and 28 tomato plants. How many plants in all?

Challenge

7. You collected 30 seashells, gave 14 away, then found 9 more. How many now?

8. We ate 29 popsicles in July and 24 in June. How many more in July?
