

Halloween Fractions: Pumpkin Pie Worksheet

4th Grade - naming fractions with a Halloween theme | 12 minutes

Name: _____ Date: _____

Each bar is a pumpkin pie cut into equal slices. Write the fraction that is shaded.

Example: A pie in 8 equal slices with 5 shaded shows $\frac{5}{8}$.

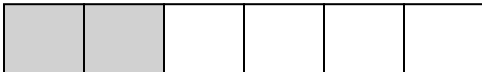

1. What fraction of the pie is shaded?

2. What fraction of the pie is shaded?

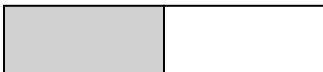

3. What fraction of the pie is shaded?

4. What fraction of the pie is shaded?

5. What fraction of the pie is shaded?

6. What fraction of the pie is shaded?

Challenge

7. One pie shows $\frac{1}{2}$ shaded and another shows $\frac{2}{4}$ shaded. Are they equal? Explain.

8. If $\frac{3}{8}$ of a pie is eaten, what fraction is left?
