

Subtracting Fractions with Like Denominators Worksheet

4th Grade - subtracting fractions with like denominators | 14 minutes

Name: _____ Date: _____

Subtract. Subtract the top numbers and keep the bottom number the same.

Example: $5/6 - 2/6$: subtract the tops ($5 - 2 = 3$), keep the bottom $\rightarrow 3/6$ (which is $1/2$).

1. $3/4 - 1/4 =$

2. $5/6 - 2/6 =$

3. $7/8 - 3/8 =$

4. $4/5 - 1/5 =$

5. $5/8 - 2/8 =$

6. $9/10 - 4/10 =$

7. $2/3 - 1/3 =$

8. $6/8 - 5/8 =$

Challenge

9. $1 - 3/5 =$ (think of 1 as $5/5$)

10. A pizza had $7/8$ left. You ate $3/8$. How much is left now?
