

Multi-Digit Subtraction Worksheet

4th Grade - multi-digit subtraction with regrouping | 16 minutes

Name: _____ Date: _____

Subtract. Line up the digits by place value and borrow when the top digit is too small.

Example: $6,331 - 2,879 = 3,452$.

1. $6,331 - 2,879 =$

2. $50,000 - 23,456 =$

3. $8,205 - 3,617 =$

4. $72,100 - 45,678 =$

5. $34,567 - 12,345 =$

6. $60,000 - 18,250 =$

7. $15,030 - 9,876 =$

8. $90,400 - 47,650 =$

Challenge

9. A town had 80,000 trees and 23,500 were planted last year. How many were there before?

10. Check $50,000 - 23,456 = 26,544$ by adding. What should you get?
